Do You have a Safe Workplace?!

- [Do you need an assessment?](#)
- [What do we do?](#)
- [Is it cost effective?](#)
- [YouTube Video](#)
- [Special Offer!](#)

Do you need an assessment?

- Do you have back pain, neck pain, shoulder pain, arm pain in the workplace?
- Have you ever missed a day's work due to musculoskeletal pain at work?
- Do you have presenteeism – are you at work but have poor productivity due to pain!
- Is your posture poor at work?

- Are you worried about sky-rocketing worker's compensation costs???

What do we do?

- Workstation assessments carried out by qualified Physiotherapists with a strong background in office ergonomics
- **On-site individual** analysis and workstation adjustments
- Up to 5 workstations per hour
- **We educate your staff on posture and workstation ergonomics**
- **We make sure that your workplace is safe and compliant**

Is it cost effective?

- Time off due to work related pain costs most companies 3% of salaries
- Workers compensation claims can increase gross salaries by 2-5%
- Investment for worksite assessments can be as little as \$25/employee – this is dependent on the number of assessments required(POA)
- Typically most offices can expect to save 3% of salaries in the first year alone
- **Most importantly people work far more productively when they're not in pain!!**

Speak to our Principal Steve Felsher today for a quote on ergonomic worksite assessments, or about any concerns. Give us a call on 9922 2212!

Check out our YouTube video on Workstation Ergonomics:
